### **TURNINGWATERWISE TRIGGER NOZZLE EXCHANGE**

Lower Murray Water has announced a new initiative for customers to exchange their old-style twist nozzle for a free TurningWaterWise trigger nozzle.

Under the current Stage 3 Water Restrictions, customers can hand water between 8am-10am and 6pm-8pm on specified watering days, provided a trigger nozzle is used.

The exchange process is very simple, bring in your LMW account and your old twist nozzle to your local office, complete the TurningWaterWise slip and receive your free trigger nozzle.

We are offering one trigger nozzle per household, and as an added incentive, all customers participating in the exchange will be entered into a special draw with some great water-wise products on offer.

Trigger nozzles can be exchanged at your local LMW office, from 9am to 5pm, Monday to Friday.

The exchange will continue until Monday 28th April or until stocks last, so be quick to get into your local office to exchange your old twist nozzle.
